## 2.1 Summary of Significant accounting policies

### (a) Use of estimates

The preparation of financial statements in conformity with the accounting policies described below requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amounts of expenses and related incomes. Actual results could differ from those estimated. Any revision to accounting estimates is recognized prospectively in current and future periods.

## (b) Property, Plant and Equipment

Property, Plant and Equipment are stated at historical cost. The cost of Property, Plant and Equipment includes taxes, duties, freight, and other incidental expenditure related to acquisition and installation.

Assets acquired for the purpose of implementation of projects have been treated as project expenses.

Gains or losses that arise on disposal or retirement of an asset are measured as the difference between net disposal proceeds and the carrying value of property, plant and equipment and are recognized in the statement of profit and loss when the same is derecognized.

## (c) Depreciation

Depreciation is calculated on pro rata basis on straight-line method based on estimated useful life prescribed under Schedule II of the Companies Act, 2013.

The useful life of major components of Property, Plant and Equipment is as follows:

Property, Plant and Equipment	Useful Life (Years)
Land	Infinite
Buildings	60
Plant and Machinery	15
Tools and Equipments	5
Data Processing Equipments	3
Furniture and Fixtures	10
Vehicles	8

## (d) Provisions and contingent liabilities and contingent assets

A provision is created when there is a present obligation as a result of a past event that probably requires an outflow of resources, and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Contingent assets are neither recognized nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

#### (e) Leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Lease rentals are charged to the profit and loss on an accrual basis.

#### K. Administrative Expenses

ChildFund International, USA (Branch Office) has registered under the provisions of the Foreign Contribution (Regulation) Act, 2020 (FCRA) since 1st January 1985. Following an email dated August 4,2023 from State Bank of India, NDMB, Parliament Street, New Delhi, the BO was advised that donations from ChildFund USA would require prior approval of MHA and in the absence of such approval, the said donation would be remitted back to the donor. This situation continued till March 2024. Consequently, during the period July 2023 to March 2024, the Branch Office was unable to receive donations from ChildFund International, USA.

Therefore, the Branch Office could not receive funds from ChildFund International, USA, for the period of the embargo i.e. from July 2023 to March 2024 for a period of nine months. The organization was having a substantial opening balance of funds as on 01.04.2023 which was utilized during FY 2023-24 with lesser programmatic expenditure and with practically no receipts during the year. The admin costs, being largely in the nature of fixed costs, continued to be incurred. The admin cost was mainly utilized for staff settlement due to non-receipt of FCRA funds. This resulted in the ratio of administrative expenses to total FC Receipts at 47.13 % which is higher than prescribed ratio of 20% as per FCRA.

However, during the year the ratio of administrative expenses to Total Expenses under FCRA stood at 16.83% which is well below the requirement of 20%.
